## OPENING AND SAFETY SENSOR FOR AUTOMATIC SLIDING DOORS

Commercial sheet

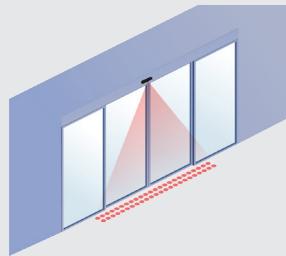

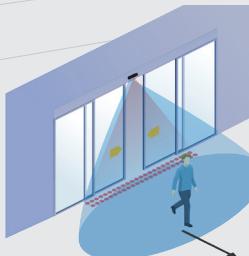

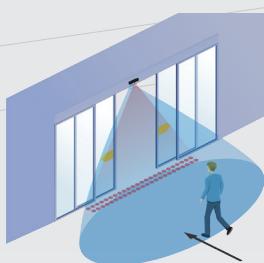

### THE SECOND-GENERATION DUAL SENSOR

#### DESCRIPTION

The **IXIO-D** is a sensor which combines radar technology for the activation of the door with infrared technology for the user protection. The unidirectional radar enables energy savings to be made. The three-dimensional infrared curtain protects people from any contact with the doors.

COMPLIANT WITH  
**EN 16005/DIN 18650**

#### UNIDIRECTIONAL

Due to the unidirectionality, the duration of the door opening cycle is shorter, which reduces heat loss from the building and saves energy. This also optimises the "airlock" function.

#### LCD

Intuitive configuration with an LCD screen with an LCD screen displaying texts and symbols (LCD graphics).

#### INFRARED CURTAINS

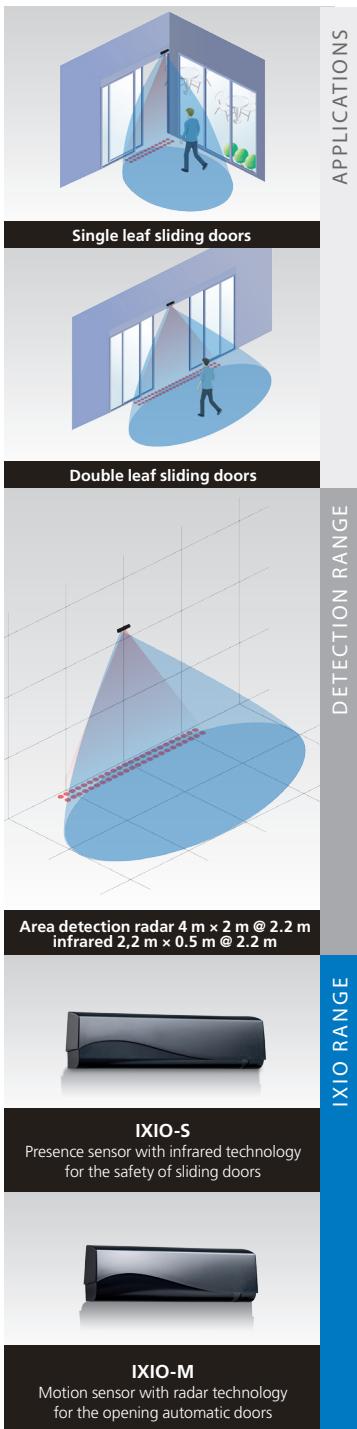

48 high-density infrared spotlights from 2 curtains protect users from any contact with the doors.

A 32-bit microprocessor optimises the processing of information coming from the environment, ensuring a stable performance throughout the year.

#### SAFETY

4 red spotlights visible on the ground to adjust the angle of the failsafe curtain.

## APPLICATIONS

- Opening and safety of linear, telescopic and curved automatic sliding doors.

## EASE OF INSTALLATION

- Intuitive configuration thanks to an LCD screen and/or a BEA remote control.
- LCD graphics screen with choice of language.
- 10 adjustment options for the IR curtains.
- Lateral orientation from -15° to +15° for the radar antenna.
- 4 infrared spotlights visible on the ground for the easy adjustment of the failsafe curtain.
- Plug, push & go.

## VERSIONS

- IXIO-DT1:** dual sensor with combined technologies and self-monitoring.
- IXIO-DT3:** dual sensor with combined technologies for emergency doors and standard doors. 3-in-1 product with choice of 3 types of output (current/frequency/relay).
- IXIO-DP1:** dual sensor with combined technologies for pulsed safety door controllers
- IXIO-DP3:** dual sensor with combined technologies for emergency doors and standard doors with pulsed safety door control.
